Analysis Report

On the basis of survey that is conducted in our institution, we have used questionnaire method and two different sets of questionnaire were given to teachers and students. The motive was to collect feedback on the course material and content delivered during their entire course program.

Teacher's Views:

The opinion was extracted with 25 numbers of teachers and in the mentioned below few points are as follows:

- University & college both can plan for a scholarship program for those students who are good in academics.
- Books for the different courses are very limited. Teachers who are Ph.D. degree holder can publish their own books for different courses.
- The teaching equipment needs to be innovated like replacement of chalk board with marker board.
- The communication among students and teachers need to be improvised.

Student's Views:

The collection of the feedback from the college students was done between 78 numbers of students. It was concluded that there were so many students who have that the course provided to complete a program is not sufficient. Few more factors were identified with feedback:-

- Course content and conduct of regular changes in different courses are required.
- Students were in favor of participating in more seminars and industrial visits.
- Students were in favor of having effective communication among them.

Industrialist View

The collection of feedback from industrialists was done between 16 numbers of members and below are the few mentioned points:

- The duration of training must be changed.
- The college must organized different workshops & seminars in college.
- The industrialists were in favour of Computer Based technology.
